Provide wellness, health and beauty through natural products.

Consumers want to buy effective, healthy and natural products that protect their skin. The natural category has exploded and now accounts for a growing percentage of the global personal care market and is climbing at double digit rates. The personal care industry goes ***natural and organic.***

Be part of this trend of natural ingredients in cosmetic products.

Aloe Vera and beauty is something that is very old, this ancient plant has been used since ancient times to preserve the natural beauty, has been described as the plant of eternal youth, a miracle of nature. The skin is the largest organ of the human body, so it is one of the most important human being because of its size and organ function, so it is one of the organs most exposed to external agents.

It is for these reasons that we must add extra care to your skin that can deal with all these actors, moisturize and cleanse it of impurities, but eventually degrades far our largest organ, causing symptoms of premature aging. Our aloe vera ingredients combine a variety of active components aimed at natural skin care formulations. AMB Wellness strives to preserve nature's functionality by minimizing modification during processing.

Additionally, process control and rigorous quality standards throughout production guarantee consistent, reliable product performance.

Our aloe vera are specifically designed for Cosmetic Compatibility

Aloe Vera provides wellness, health and beauty through personal care products.

We delivered natural properties of Aloe Vera Powder in your products

Among its active components the Aloe Vera extracts (juices, concentrates and powders) from AMB provide polysaccharides, protein, organic acid, vitamins, aminoacids and minerals that can be incorporated into formulations for moisturizing, anti-inflammation and skin lightening products, as well hair care products.

Cosmetic grade (CG) products have low bacterial plate counts making them suitable for use in a wide variety of cosmetic and personal care applications. Consumers are highly aware of the need to protect and restore their skin and hair. Especially in demand are effective anti-aging actives that neutralize free radicals, slow down the formation of fine lines and wrinkles or retain

the skin's moisture.

Many people believe that Aloe Vera is a natural moisturizer, just the opposite is a powerful astringent that has the ability to thoroughly clean all three layers of the skin, this deep cleaning pores and remove obstruction of glandular ducts, so the substances nutrient and water penetrates easily into the hypoder- mic layer. Although it is recommended for all skin types, it is especially recommended for oily or acneic, conserves water ungreased.

Add more life to your facial products with natural bioactives from Aloe Vera.

Aloe Vera has some excellent moisturizing ingredients: consisting of 96% water and 4% amino acids, minerals, vitamins, enzymes, vitamins A, C, and E. The regenerating effect of Aloe has a great impact on the efficiency of cell division. Aloe works at the cellular level; each Aloe Vera personal care product is therefore an anti-aging effect.

Aloe Vera is your nature's answer for innovate your products

Add more life to your facial care products with natural bioactives from Aloe Vera.

First: the polysaccharides act as moisturizers, hydrating the skin.

Second: aloe is absorbed into the skin and stimulates the fibroblasts to replicate themselves faster and it is these cells that produce the collagen and elastin fibers, so the skin becomes more elastic and less wrinkled.

Third: aloe makes the surface of the skin smoother because of its cohesive effect on the superficial flaking epidermal cells, binding them.

Fourth: aloe possesses the ability to interfere with the enzyme that produces melanin deposits in the skin, helping to prevent the formation of 'liver spots', which tend to develop in aging skin. When used regularly it may even help to eliminate existing spots.

Aloe vera amplifies the antioxidant effects of vitamins

This is an especially interesting effect of aloe: It makes vitamin C, vitamin E and other antioxidants work better! It actually potentiates antioxidants, probably due to its effect on enhancing blood quality and allowing the blood to more effectively transport oxygen and nutrients to the body's cells. In fact, it is my belief that aloe vera makes everything nutritious work better due to its blood-enhancing effects. If I'm right about that, it means aloe can potentiate anti-cancer herbs, too, helping them more effectively target tumors.

Skin structure

The skin has three main layers, which in turn are subdivided into as many layers: The way that Aloe Vera acts on the pores of the skin, is remove the obstruction of all substances that keep skin can expel all the waste substances with external agents that are mixed with them.

Aloe Vera is a versatile natural ingredient available for use in facial care

The properties of Aloe Vera saponification is conducted by the combination of amino acids and polysaccharides that make these accumulations of external fat and become contaminants foamy substances, being removable easily with daily grooming. This deep cleaning promotes exchanges with the outside can also penetrate water containing Aloe Vera this will produce a deep hydration of the skin. Aloe Vera has calming effects, amino acids and polysaccharides regenerators, it is the best to stimulate cell regeneration and helps to moisturize the skin. Aloe Vera is also very suitable for preventing the appearance of stretch marks (adolescence, pregnancy, diets, etc.).

Aloe Vera is a natural moisturizer and has deep penetrating effect, applied in facial products

After that Aloe Vera has penetrated well into the skin can be served with a moisturizer for the benefit is greater. It has been demonstrated that dry Aloe Vera extracts increase skin moisturization through a humectant mechanism. Indeed, this substance increases the quantity of water contained in the superficial part of the epidermis without increasing the TEWL (TransEpidermal Water Loss).

Aloe Vera is as a soothing moisturizer for sensitive, and comfort, protection and healthy-looking skin.

Antioxidative and Anti-inflammatory effect

Aloe Vera contains essential vitamins and minerals – Vitamins: It contains **vitamins C and E which are antioxidants. It also contains vitamin B12, folic acid, and choline.** Antioxidant neutralizes free radicals and minerals as: **calcium, chromium, copper, selenium, magnesium, manganese, potassium, sodium and zinc.** They are essential for the proper functioning of various enzyme systems in different metabolic pathways and few are antioxidants - which help fulfill our daily nutritional requirements. This deep effect promotes exchanges with the outside can also penetrate water containing Aloe Vera this will produce a deep hydration of the skin.
