

Aloe Vera Hydroskin Oncology Cream: Hydrate and Rejuvenate- Glycovera Derma

Benefits: Anti-inflammatory - Onco, Moisture - Onco, Scar treatment - Onco, Sunscreen – Onco

Used in: Inflammation, Radio dermatitis, Rash, Radiation burn, Onco treatment

Treatment of skin treated with radiotherapy, after laser application, recovery of scars and micro pigmentation, and Anti-aging cream that helps in the care and regeneration of the skin of the face, neck, and décolleté. Contributes to repairing and improving the quality of the dermis, moisturizing and protecting it dermatologically. Suitable for skin aged for any reason and especially indicated for oncological treatments and specially designed for localized application in the area treated with radiotherapy. It is quickly absorbed, avoiding having to massage the affected area.

Ingredients	% w/w
GLYCOVERA DERMA	3.0000%
Water	96.9400%
Ceramidas	0.0003
Vitamina e, o α -tocoferol	0.0003
Total	100%

Procedure: Separate the powder ingredients and liquid ingredients into two groups. Start by combining the water with the liquid ingredients in a vessel. Gradually add the powder ingredients (excluding Glycovera Derma) to the liquid mixture while mixing at high speed until a lump-free consistency is achieved. After preparing the serum, take 5% of the liquid and blend it with Glycovera Derma at high speed until smooth. Incorporate this Glycovera-infused concentrate back into the rest of the liquid and mix thoroughly at high speed until fully integrated.
