

Aloe Vera Comfort Cream: Soothe and Calm Your Skin with Care- Glycovera Derma

Benefits: Anti-inflammatory - Onco, Moisture - Onco, Scar treatment - Onco, Sunscreen – Onco

Used in: Redness, Radio dermatitis, Rash, Radiation burn, Onco treatment

Chemotherapy kills cancer cells in the skin. Because the body is less able to absorb the cream into the deep layers of the skin, it typically causes fewer side effects than oral or intravenous chemotherapy. This may make chemotherapy cream a suitable choice for early-stage skin cancers and precancers. For helps sore skin after radiotherapy, moisturizing cream which is free of sodium lauryl sulphate (sls) should be gently applied to the area. Appropriate dressings and products should be used on broken skin to reduce further trauma or infection. Suitable products should be non-adhesive or silicone low adhesive. It may also be useful for eliminating human papillomavirus, which is a virus that can increase the risk of cancer, from the skin.

Ingredients	% w/w
GLYCOVERA DERMA	3.50%
Mammeasurigain cream base containing virgin coconut oil	89.5000%
Boswelliaserrata,	5.0%
Cucumissativus	2.0%
Total	100%

Procedure: Take the bottom 4 ingredients heat them in a vessel at 50°-60° celsius mixing at medium speed until is homogeneous. Approximately 5% is extracted and blended with Glycovera Derma at high speed until a smooth texture is attained. This Glycovera-infused liquid is then reintroduced to the rest of the vessel and mixed at high speed until full incorporation.
