Procedure: In separate containers, gather all the liquid ingredients and all the powder ingredients (excluding Glycovera Derma). Begin by mixing the water with the liquid ingredients in a vessel. Slowly add the powder ingredients to the liquid mixture while mixing at high speed until no lumps remain. Once the serum is ready, extract 5% of the liquid and combine it with Glycovera Derma, mixing at high speed until a smooth texture is achieved. Reintroduce this Glycovera-infused concentrate to the remaining liquid and mix at high speed until fully incorporated.
